

I think this airing is outrageous to pre-empt normal programing. If they plan to air that perhaps F-911 ought to be aired. It is totally different if someone wants to pay to see that. Afterall, Kerry is a respected Senator just as the President is respected in his position. How would it be taken if a broadcasting agent would put an anti-Bush out just a few days before election. What has our country come to? I firmly object to anti-Kerry or anti-Bush.....we get enough of that in TV commercials much less a whole program.
